📱 WORK EXPERIENCE

JavaScript & UI Developer   April 2016 – Present
Penn Foster

Our team creates webpages from marketing designs, turning PSD and invision files into reusable templates. We are updating the entire marketing site and landing pages. In addition to these projects, we have developed and updated the b2b site, the brand site, created landing pages for partner programs, created templates in springshare for our library site and developed an internal template module creator, and are working on creating an internal design system with our marketing designers. Each project is mobile friendly, responsive and looks great across all browsers

Technologies Used: HTML, CSS, SCSS, Jquery, Sitecore, AngularJS, Angular 5, Azure, AWS, Media Queries, A/B Testing, User Testing, Responsive and Mobile Development, Adobe Photoshop, Adobe Illustrator, Invision, Agile, Springshare, Brackets, Slack, Foundation & Bootstrap
